Welcome to Queensland Taxi Owners And Drivers Welfare Association Inc. Web Site.  
The site is still under construction please feel free to leave your suggestions.

**Established 21<sup>st</sup> June 2009**

Queensland Taxi Owners And Drivers Welfare Association Inc. was Established to improve the Taxi Industry's Health and Safety; to improve Driver Safety and to improve Customer Safety and Service, to bridge the gap between the Police force and the Drivers, so Drivers report incidents that happen incidents that can then be investigated by the Police, Drivers have not been reporting Incidents which is allowing the travelling public to keep repeating the offence knowing that they will get away with it because no one is going to do anything, so we need to change things.

The Queensland Taxi Owners And Drivers Welfare Association Inc. has had many Meetings with the Queensland Government the Department of Transport and the Police Department to discuss Driver Safety in our endeavors to improve Driver Safety.
